

Describe this video in detail.

The video shows a rainy day on a city street. The street is wet from the rain, creating a slick surface for the cars to drive on. There are several cars on the road, with some driving forward and others moving in the opposite direction. The traffic lights are visible at various points along the street, indicating the flow of traffic. The overall atmosphere of the video is that of a rainy city street with cars moving cautiously in the wet conditions.

What is the behavior of this ego car? Please describe the reason.

The behavior of the ego car is braking and coming to a stop. This action is prompted by the presence of a red traffic light. When the light turns red, it serves as a signal for the driver to stop the car. In response to this signal, the driver applies the brakes, gradually reducing the speed of the car until it comes to a complete stop, ensuring compliance with traffic regulations and maintaining safety.
